1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please enter as the first sentence of the Specification the following:

- - This application is a continuation of application serial number 10/010133 filed December 6, 2001 which issued as U.S. Patent 6,722,037. - -

2. Claims 1-3 and 5-7 are allowed.

3. Claims 4 and 8-19 have been canceled by amendment.

4. Applicant's arguments filed 12/10/04 have been fully considered. The argument that the language "vehicle door beam" should be given patentable weight has not been found persuasive as the preamble is not considered necessary to give life, meaning and vitality to the claims. The argument that the prior art of record fails to teach or adequately suggest a one-piece tubular beam having different thicknesses having attachment portions integral with the tube and extending from opposite ends of the tube has been found persuasive.
